EU-BRIDGE 2014 @ EXHIBITIONS AND EVENTS!

In the third year of EU-BRIDGE, the project presented its research and development at various international fairs and exhibitions:

- L-REC (HLT-Village), Reykjavik, May 28-30, 2014
- IBC, Amsterdam, September 12 & 13, 2014
- “Lust auf Technik”, Stuttgart, November 20 – 23, 2014

In 2015 EU-BRIDGE will be present at CeBIT, Hannover, March 16-21, 2015 with demos at the exhibition and with the “EU-BRIDGE Technology Day”, to be held on March 17, 2015.

Sebastian Stüker presents EU-BRIDGE's demos to Márta Nagy-Rothengass at L-REC.

L-REC (HLT-Village), Reykjavik, May 2014

EU-BRIDGE presented its technologies at the “HLT-Village” at the 9th “Language Resources and Evaluation Conference” (L-REC) in Reykjavik on May 28-30, 2014.

EU-BRIDGE was part of the “Human Language Technologies Village” and presented live-demos of the lecture translation system, showed also demos of automatic captioning, multilingual subtitling, automatic translation of voting sessions, speech translation for webinars and the interpreter support.

At L-REC 2014 Alex Waibel won Antonio Zampolli Prize for outstanding contributions to the Advancement of Language Resources and Language Technology Evaluation within Human Language Technologies.

The organisers of L-REC, Khalid Choukri, Nicoletta Calzolari handing over the Zampolli Prize to Alex Waibel.

IBC, Amsterdam, September 2014

The “International Broadcast Convention” (IBC) is the global meeting place for everyone engaged in creating, managing and delivering the future of electronic media and entertainment technology and content. EU-BRIDGE’s partner Red Bee Media participated in the whole fair and presented the automatic captioning of BBC weather forecast.

EU-BRIDGE was present for two special days during which:

“Demo session and presentation of technologies: Breaking the speech and language barrier – your solution in 15 minutes!” was presented. This event caught attention of a considerable audience; for about 30 people an information sheet was filled in and further information was sent to the parties interested after the exhibition.

Lust auf Technik, Stuttgart November 20-23, 2014

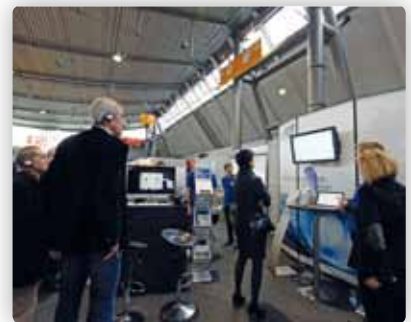

The “Lust auf Technik” is the largest exhibition centred around science and technology in southern Germany. As the target audience of the exhibition is the general public, the exhibition was a perfect place to present EU-BRIDGE and its developed technologies to a wide audience. The interest in the simultaneous automatic speech translation system was very high, we presented the system for four days to the general public.

Outlook: EU-BRIDGE @ CeBIT, Hannover 2015

EU-BRIDGE aims to profit from the large audience and amount of experts being present at CeBIT. EU-BRIDGE will be present at the booth of KIT during the whole exhibition and will furthermore organise its Technology Day on the second day of CeBIT in the convention centre.
